## SHUTTER SOLUTIONS THAT WORK FOR YOUR BUSINESS

Today, more than ever before, we need physical security at work to protect against vandalism, burglary or simply just for privacy. At Dennison Doors we can provide this piece of mind as standard to existing properties and new builds. Furthermore, premises that have existing manual shutters which are frequently in use can greatly benefit from automation; let us take the strain out of accessing your building by utilising our range of control systems and motors, to make using your shutters completely effortless.

Through our unique vendor partnerships we are able to provide systems that not only complement and enhance your property but provide a level of security that is robust and class-leading. At Dennison Doors, regulatory compliance and health and safety is paramount, and all install and maintenance work is completed to BS EN 12635:2002. From securing a bar or kiosk, to maintaining the integrity of your premises, trust the south coasts premier door supplier; we have the right solution for you.
